Love Crashed Into the World (Baby Love)

Turn: **A E F#m D**

**A E F#m D**

Everybody knew a king was coming soon  
And everybody waited  
When's he gonna come  
When's he gonna make his move  
It's so long we've been waiting

They were looking for a big man, big town  
Surely knew his way around a big crowd, gold crown  
Couldn't be defeated by anyone, anyone  
And they thought that they would spot him easy  
It would be a piece of cake to recognize  
All the changes he was gonna make things better, better, better

Baby love crashed into the world, crashed in  
Baby love crashed into the world, crashed in

Everybody knew a king was coming soon  
And everybody waited  
We want a king now  
Come turn things upside down  
We've been oh-so-patient

They thought that he would be a big deal, big king  
Everybody'd recognize and bow down, take heed  
What they didn't realize is God does things differently  
So he didn't make a big splash, big thing  
Didn't draw attention to the newborn new king  
Slipped into the world like anyone, anyone

Baby love crashed into the world, crashed in  
Baby love crashed into the world, crashed in  
Baby love crashed into the world, crashed in  
Baby love crashed into the world, crashed in

Oh, the angels told the shepherds in the field  
And the star did glow and wise men did appear  
And then, lo and behold, the people began to hear  
And the king was known, the king was here  
Yes, that king was known, the king was here

They sang "Lo and behold, lo and behold  
Lo and behold, lo and behold"

Baby love crashed into the world, crashed in  
Baby love crashed into the world, crashed in  
Baby love crashed into the world, crashed in
